

PROGRAMME DESCRIPTION

We offer PhD program in varied research areas as far as medical physiology is concerned and the core areas include respiratory physiology, cardiovascular physiology, behavioral neuroscience and a few others as well. Our specialized and well-equipped laboratories make it convenient for students to pursue their independent research work and are offered guidance and support by our highly qualified and experienced academic staff. This program is thus intended for students, who wish to advance their studies in this relevant discipline of study.

PROGRAMME AIM

The primary aim of this program is to offer research training in such a way that fosters the growth of autonomous research skills in students. The students also acquire a broader perspective of Medical Physiology as well as its integral aspects. Our program of study includes lecture, research and thesis. This learning will thus help the students to plan a career as far as the medical field is concerned.

PROGRAMME DURATION

3-6 Years (Full-Time), 4-8 Years (Part-Time)

CAREER OPPORTUNITIES

- 1· Research Project Manager, 2· Researcher
- 3· Teaching Assistant

INTAKE AND ENTRY REQUIREMENTS

INTAKE : Ongoing

ENTRY REQUIREMENTS : Master's Degree in Physiology, Medical Sciences, Ayurvedic Medical Sciences, Biological Sciences or equivalent related areas.

ENGLISH REQUIREMENTS : For international students: international students are required to achieve a minimum score of 5.0 for IELTS or its equivalent.

LIST OF COURSE/MODULE OFFERED IN THE PROGRAMME

Sl. No.	Subject Name
1	Research Methodology
2	Computer Application
3	PhD in Medical Physiology (Research Work)
	Cell Physiology
	Neurophysiology
	Musculoskeletal Physiology
	Cardiovascular Physiology
	Gastrointestinal Physiology
	Respiratory Physiology
	Renal Physiology
	Reproductive Physiology
	Immunology
	Endocrinology
	Ergonomics & Occupational Health
	Stem Cell Physiology
