

PROGRAMME DESCRIPTION

In the present scenario there is a shortage of qualified nurse educators. Hence, the demand for nursing teachers is quite high. The programme deals with the teaching method along with the principles and methods that must be implemented by nursing teachers to achieve the desired learning goals. The programme is designed to guide nurses wishing for a career in teaching. This programme aims to equip individuals with the ability to apply and utilize a range of teaching approaches that will enhance teaching and learning.

PROGRAMME AIM

- Develop nursing curriculum design
- Measure and evaluate educational settings
- Analyse academic policies, protocols, and legal aspects of education
- Utilized teaching methods within nursing education

PROGRAMME DURATION

Minimum Duration: 6 Months.
Maximum Duration: 6 Months.

CAREER OPPORTUNITIES

Nurses play a key role at the forefront of healthcare service, with their contribution to client care imperative for the wellbeing of today's society. This programme prepares registered nurses to educate and teach health professionals. After completing this the nurses can work in a wide variety of nursing roles and will be well equipped to pursue teaching and educational opportunities in a range of healthcare settings, such as:

- hospitals · primary health and community support services · aged/rehabilitative care · schools · home care
- drug/alcohol services · community health organisations · palliative care services · child and adolescent health services
- tertiary education setting
