

Faculty of ENGINEERING

The Faculty of Engineering at Lincoln University College, Malaysia welcomes creative young aspirants who can face the challenge of stimulating future society. We teach the engineers and researchers who will develop inventive solutions to tomorrow's challenges and bring our experience to industry and the society, locally and internationally. The Faculty of Engineering has held upward the beacon of knowledge, education and research in the field of Engineering throughout its existence. Its pioneering and comprehensive scheme of education intends at excellence but not at the cost of relevance, promotes initiative and creative work, which is interdisciplinary, and which organizes the student for the increasingly techno-oriented society of tomorrow. We offer various programmes at the undergraduate, postgraduate and doctoral levels.

Doctorate

Doctor of Philosophy (Engineering)

Master

Master of Science in Electrical and Electronics Engineering

Master of Science in Telecommunication Engineering

Master of Mechanical Engineering

Master of Science in Civil Engineering

Master of Water Resource Management

Master of Science in Alternative Energy

Bachelor

Bachelor of Mechanical Engineering Technology

Bachelor of Chemical Engineering Technology (Honours)

Bachelor of Civil Engineering Technology

Bachelor of Engineering Technology (Hons) in Electrical and Electronics

Bachelor of Mechanical Engineering Technology (Aeronautics) (Hons)

Diploma

Diploma in Mechanical Engineering

Diploma in Electrical and Electronic Engineering

Diploma

Diploma in Civil Engineering

Diploma in Aeronautical Engineering Technology (Aircraft Maintenance)

"Studying in Lincoln University College made me realize that I am capable of so many things that I have never knew before. It has simply turned me into the best version of myself. I have built confidence that I needed to reach my goals. I am honored and grateful"
