

Faculty of ARCHITECTURE & BUILT ENVIRONMENT

The Faculty of Architecture & Built Environment at Lincoln University College, Malaysia has a universal reputation for revolutionary problem-based, research-led and online learning in its curriculums. Our faculty also provides exceptional learning environments for our students so that they can be a part of a vibrant and professional area of exceptional scholars, researchers and practitioners. We bring together the students and academics from a wide range of architectural, construction, property and engineering disciplines in an innovative and inter-disciplinary environment. We provide our students the instruments and practical knowledge to become inventive, innovative, well trained graduates, fully trained to convert visions into reality. Our degrees are all certified by their respective zenith national professional bodies and our graduates are exceedingly sought after.

Diploma

Diploma in Architecture

Throughout my career, the technical, problem solving and critical thinking skills that I developed during the time I have spent in LUC have helped me tremendously. The skills that an individual will acquire in LUC's Architectural Engineering program will serve them perfectly in whatever career path they decide to take.
