# BACHELOR OF PSYCHOLOGY

(R/311/6/0069) (07/27) (MQA/FA4735)

## PROGRAMME DESCRIPTION

The Bachelor of Psychology program provides a basic knowledge and skills required to understand the behavior of both individual and groups, which is necessary to influence the way educators, policy makers and the community surveyor work about mental health and the workings of the human mind. Students incorporate and integrate comprehensive education in basic areas, including development of understanding of social, cognitive, biological and abnormal psychology among individuals. The program teaches the associations between the brain and behavior, the processes that determine speech, create and keep memories or respond to stress. The Bachelor of Psychology programme curriculum focuses on developing an understanding of key theoretical concepts and on practicing skills associated with the areas of assessment and counseling. Practical application of the knowledge and skills will be demonstrated in projects reflected at both the personal and professional level.

## PROGRAMME AIM

The primary aim of The Bachelor of Psychology program is to equip student with contemporary integrative approach towards psychology and its application regarding the psychology as appropriate at undergraduate level. The programme furnishes the students the experience necessary to learn about current practices in the fields of counseling, psychology and its relevance in the current context and the basic principles of scientific research and clinical psychology.

Aims of Bachelor of Psychology are:

- ▶ To offer students a solid foundation of core psychological principles and expose them to a broad cross-section of topics within basic and applied psychology
- ▶ To help students develop research and communication skills, and attain strong background in psychology as a science.
- ▶ To foster critical thinking amongst the students to address evolving issues related to education, work, health-care, and everyday life.
- ▶ To provide a solid foundation in modern psychology and diversity of skills to prepare the student for a wide range of careers concerning human behavior and experiences
- ▶ To provide an understanding and capability to work independently for the management of human resource and personal development for other services.

## PROGRAMME DURATION

Minimum Duration : 40 Months. | Maximum Duration : 72 Months.
